STATEMENT

A self-motivated person, a good team player, with over six years of experience as a developer and I have built, developed, delivered various applications with modern technologies and with cloud application hosting technique. A person who is detail-oriented and quite flexible by nature, continuous and fervent learner, I pay attention to details and always on time, flexible in project development to meet business goals. I am eager learning new technologies and improving on my existing skills, having an excellent spirit for management and strong client-facing skills. Demonstrates the ability to motivate and groom a formidable team with discipline and value.

Having a strong passion for developing scalable applications and I work across full stack technologies and with good communication skills.

I also have a well tailored three years plus experience in mobile app development with react native.
